

SECURE TAG

Small button sized tags are fastened to the residents clothing utilising a bespoke fastening or sewing tool.

The clothing is put through the wash and drying cycles.

On removal from the tumble dryer each item of clothing is passed over the electronic reader and the room number stored in the tag is displayed on the screen.

Each item of clothing is then placed into its respective basket/tray and returned to the appropriate room.

Launching our NEW garment tagging solution for the care home industry

- ❖ Guarantees all residents receive only their own clothing following the laundry process
- ❖ Eliminates net bag washing and the risk of cross infection
- ❖ Banishes unsightly indelible pen marking and name tapes
- ❖ No more distressed residents or their relatives
- ❖ 5 year warranty on button tags

GUARANTEES RIGHT CLOTHES RIGHT RESIDENT - AS SIMPLE AS THAT !
